

RESTART® CERTIFICATE

This is to Certify that:

IKEA
in collaboration with
Olivers Contracts Ltd

has successfully contributed to the ReStart® program by making its Tarkett vinyl flooring installation waste & post-use homogenous vinyl available for closed-loop recycling.

In November & December 2022 and January 2023, a total of

1907kg's

of post-use homogenous vinyl and new vinyl offcuts were recovered from

IKEA
Pincents Lane, Reading

The collected vinyl can be processed at Tarkett's own recycling facility, becoming new Tarkett vinyl products, saving approximately:

6.9 tonnes CO2-eq

The ReStart® program is an essential part of Tarkett's commitment to the Circular Economy, ensuring that the material stream never ends. Tarkett aims to produce high-quality floorcoverings that have a clear positive impact on people and their environment.

Thank you for your valued contribution.

Ross Dight
UK&I Technical & Sustainability Director
